

OFFICE OF THE CHIEF ADMINISTRATOR

NOTICE TO SENLAC HILLS DEVELOPMENT RESIDENTS
RE: EAST WASHINGTON STREET IMPROVEMENT PROJECT
August 6, 2020

The East Washington Street improvement project is now underway, involving work on utilities and pavement along the entire stretch of this roadway. This project is broken up into four road closure sections by estimated date. When each section is closed, only eastbound local traffic will be allowed to enter the work zone area. Below is the schedule for the road closures:

- July 6 through August 28 -- Cleveland Street to Ridgewood Road
- August 17 through September 7 -- Ridgewood Road to Billy Campbell Boulevard
- **September 3 through October 16 -- Philomethian Street to Cleveland Street**
- October 19 through November 20 -- North Main Street to Philomethian Street

**This schedule is subject to change due to weather or project variables.*

During the closure period for the section from Philomethian Street to Cleveland Street, access into the Senlac Hills development will only be available by traveling eastbound on East Washington Street. Residents and visitors are considered "local traffic" and are permitted access through the work zone area to reach the Senlac Hills development. When exiting the development, motorists must travel eastbound only on East Washington Street. There may be delays within the work zone sections, so motorists are advised to plan accordingly when preparing to travel.

In the final phase of the project starting in November, the street repaving work will begin and take place in the entire stretch of roadway. The roadway and sidewalks will remain open during this phase, with delays expected with moving work zones and crews as the paving is completed.

We thank you for your patience as we work diligently to complete this important project in a safe and timely manner.

Respectfully,

Robert Jamieson

Chief Administrative Officer
