PRESS RELEASE

EAST WASHINGTON STREET IMPROVEMENT PROJECT
PROJECT UPDATE – PAVING SCHEDULE
November 4, 2020

There is a change in the schedule for the street repaving portion of the East Washington Street improvement project. In examining the project schedule and coordination of the final phases of the project, along with the time of year and possible weather challenges, the Village Engineer has recommended that the street repaving phase of the project be moved to the spring of 2021 instead of attempting to complete it this fall. It is the desire of the Village to obtain a quality, long-lasting paving job that will last a minimum of 15 years, and the ability to achieve this goal is much stronger if this phase is moved to the spring. The Village of Chagrin Falls will provide notice and project details in the spring of 2021 when the repaving work is scheduled. Thank you for your patience and understanding as we work to complete this extensive project.

Robert Jamieson
Chief Administrative Officer
