NOTICE OF INTENT TO PROCEED

To all interested citizens, organizations, and
government agencies

City of Chagrin Falls, Cuyahoga County
WWTP Improvements Addendum
CS390240-0008

The attached Limited Environmental Review Addendum describes a minor change to the City of Chagrin Falls WWTP Improvements project presented after the project received a final Finding of No Significant Impact. We have reviewed the proposed change and conclude it should not result in significant adverse environmental impacts. More information can be obtained by contacting the person named at the end of the Addendum.

Upon issuance of this determination, loan award may proceed without being subject to further environmental review or public comment, unless information is provided which determines that environmental conditions for the proposed project have changed significantly.

This change to the description of the project is not a substantial change and does not alter our conclusion that significant environmental impacts will not result from the project.

Sincerely,

Jonathan Bernstein

Jonathan Bernstein, Assistant Chief
Division of Environmental & Financial Assistance
Office of Financial Assistance

LIMITED ENVIRONMENTAL REVIEW *ADDENDUM*

Project Identifications

Project: East Washington Street Waterline Replacement
SSO Elimination (Inflow & Infiltration Reduction)
WWTP Improvements

Applicant: William Tomko, Mayor
Village of Chagrin Falls
21 W. Washington Street
Chagrin Falls, OH 44022

Loan Numbers: FS390240-0010, CS390240-0006, *CS390240-0008*

This Addendum to the WWTP Improvements Limited Environmental Review and Finding of No Significant Impact released on April 7, 2020 describes proposed replacement of the wastewater treatment plant disinfection and tertiary treatment systems. The April 7, 2020 Limited Environmental Review (LER) is available from the contact named at the end of this document.

Project Summary

The Village of Chagrin Falls in Cuyahoga County applied for a September 2020 loan award of approximately \$2,750,000 from the Ohio Water Pollution Control Loan Fund (WPCLF) to install a new ultraviolet light (UV) disinfection system, replacement emergency generator, and replacement tertiary sand filters at the wastewater treatment plant (WWTP). These significant components were excluded from the combined LER for three Chagrin Falls projects issued on April 7, 2020.

The proposed WWTP improvements described in the April 7, 2020 LER were completed or included as part of a different, earlier phase of WWTP improvements and erroneously included in the project description. This loan's WWTP Improvements include replacing the existing chlorine tank with a UV disinfection unit, replacing the tertiary treatment sand filters with disc-style tertiary filters, and replacing the emergency generator.

This change to the WWTP loan has no significant effect on the loan amount, interest, savings, or WWTP Improvements completion date as described in the original LER.

Ohio EPA will make a copy of this document available to the public on its web page (epa.ohio.gov/defa/ofa.aspx, WPCLF Documents for Review and Comment) and will provide it on request to interested parties. Information supporting this Limited Environmental Review (LER) is available from the project contact named below.
