

ACTIVITIES REPORT

Shade Tree Commission

Chagrin Falls Village Hall | 21 West Washington Street | 440-247-5050

June 2020

Shade Tree Commission Activities Report June 2020

1. All trees planted this spring are being watered on a weekly basis.
2. The Commission is considering various strategies to increase the transparency of the development of the planting list for each spring. One step being considered is the creation of a letter informing a resident that a tree will be planted on his/her tree lawn during the upcoming spring. This letter will be sent within a month of a tree being placed on the list. A report of all proposed tree plantings will be updated monthly and posted on the Village website.
3. Three serviceberries on High Court will be removed due to the presence of mites. Input as to the type of replacement plantings desired by the residents has been sought.
4. 210 E. Washington St. has been added to next spring's planting list.
5. One oak tree planted at the top of N. Main St. hill on Summit St. is failing and will be removed. A second tree at the same location will be monitored over the summer. Two replacement trees will be placed on next spring's planting list.
6. Two river birch trees on 310 North St. were removed due to the construction of a new driveway. These two trees were replanted on South Franklin to meet the request of a homeowner who recently requested two trees.
